# SUBHASREE PARIDA

Python Full Stack Developer

Bengaluru

Email: subhasreeparida73@gmail.com | Phone: +91-6371578827

GitHub: https://github.com/subhasreeparida73

## PROFESSIONAL SUMMARY

Python Full Stack Developer with strong experience in building scalable web applications using Django, Flask, and RESTful APIs. Skilled in frontend technologies like HTML, CSS, JavaScript, and Bootstrap, with hands-on expertise in SQL databases and data visualization using Power BI. Proven ability to deliver AI-driven solutions such as recruitment systems, chatbots, and task automation tools. Passionate about continuous learning, writing clean and efficient code, and collaborating in Agile development environments.

## TECHNICAL SKILLS

Programming Languages: Python, JavaScript

Frameworks: Django, Flask, Bootstrap

Frontend: HTML, CSS, JavaScript, Bootstrap

Databases: SQL (SQLite, MySQL)

APIs: RESTful API Development and Integration

Tools & Version Control: Git, GitHub

Data Analytics & Visualization: Pandas, NumPy, Matplotlib, Power BI

Operating Systems: Linux, Windows

## EDUCATION

B.Tech in Computer Science & Engineering
ITER, SOA University, Bhubaneswar — Sep 2020 – Jul 2024
CGPA: 8.04

12th, CHSE Board
Choudwar College, Cuttack — Mar 2019 – Mar 2020
Percentage: 70.83%

10th, HSE Board
SSVM, Choudwar, Cuttack — Mar 2017 – Feb 2018
Percentage: 83.33%

## INTERNSHIP EXPERIENCE

Python Full Stack Developer Intern
Infotact Solutions — Feb 2024 – May 2024

• Developed scalable web applications using Django framework.
• Designed and integrated RESTful APIs for seamless data communication.
• Worked with SQLite3 for backend data management.
• Utilized Git for version control and collaborative development.
• Contributed to multiple AI-based software solutions, enhancing operational efficiency.

### Key Projects:

• Voice Assistant-Based Attendance & Task Management System
  Developed an AI-driven system leveraging NLP, speech recognition, and machine learning for automating attendance and task management through voice commands.
• AI-Driven Smart Recruitment System
  Built an AI-powered recruitment system integrating resume parsing, candidate ranking, and AI-based interview scheduling to streamline hiring processes.
• Dynamic AI Chatbot
  Created an intelligent chatbot with NLP and ML capabilities for contextual conversations and automated query handling, deployable in web applications and customer support systems.
• Power BI Dashboard from Excel
  Designed a dynamic business dashboard for profit-loss analysis using Power BI, enabling year-wise data visualization and actionable insights.

## PROJECTS

• E-Commerce Website (Personal Project)
  Full-stack e-commerce web application with user authentication, product listing, cart management, and order placement using Django, REST APIs, and Bootstrap.
• Task Management Web App
  Built a task management system for individual and team use cases with a user-friendly frontend and secure Django backend.

## CERTIFICATIONS

Python Full Stack Development – JSPIDER

AI ML – COMVIVA
